

CVS specialty[®]

**What
matters
most**

Specialty medications with personalized support

CVS Specialty provides specialized care and support while filling your specialty medications. With a personalized CareTeam, helpful digital tools and the choice of medication pickup or delivery, we're here to help make living with your condition a little easier.

Coverage of your specialty medicine

Your pharmacy plan covers some drugs, and your medical plan covers others. Depending on your plan, you may need to pay a copayment or coinsurance. And certain drugs require prior authorization. It's when we need to make sure you meet all the requirements in order to cover certain medications before they are filled. We'll work to get your medication as quickly as possible.

All-around convenience

Personalized care and support

With CVS Specialty, you have access to a team led by pharmacists and nurses who are specially trained in conditions like yours. You can rely on your CareTeam for personalized support to help you manage your health and stay on track. We'll also:

- Remind you when it's time to refill
- Help you manage symptoms and side effects
- Check dosage and medication schedules and make sure you know how to take your medication correctly

Convenient delivery*

You can have your medication delivered anywhere nationwide, even if you're on vacation. Or you can pick it up at any **CVS Pharmacy**[®] location.*

How to get started:

At **CVSspecialty.com** it's easy to manage your medications.

On **CVSspecialty.com** you can:

- Refill your prescription
- Check order status
- Message your CareTeam
